What the Public Guardian and Trustee Does

For children under the age of 18

In administering the affairs of children under the age of 18, the PGT:

- holds funds for children under the age of 18;
- monitors the actions of executors and trustees managing property for children;
- manages children's interests in estates, lotteries, insurance policies and permanent impairment benefits;
- approves settlements for personal injury and fatal accident, and manages the proceeds of those claims;
- approves legal fees for settlements of personal injury or fatal accident claims;
- consents to the sale, transfer or lease of real estate where children have an interest;
- acts as property guardian for permanent wards of the province; and
- enters and manages registered disability savings plans (RDSPs) for children.

For persons who are not capable of managing their own affairs

The PGT can be appointed as property guardian by means of:

- A Certificate of Incompetence under *The Mentally Disordered Persons Act*:
  - A medical doctor issues a Certificate of Finding of Incompetence.
  - A Chief Psychiatrist issues a Certificate of Incompetence.
  - The PGT issues an Acknowledgement to act.
  - The PGT has up to one year to issue an Acknowledgement after the date of the Certificate of Incompetence.
- A court order under *The Adult Guardianship and Co-decision-making Act*:
  - Under *The Adult Guardianship and Co-decision-making Act*, the court can appoint the PGT as personal or property guardian, if no one else wants to act or a family is in dispute.

When the PGT acts as property guardian, it is responsible for managing all the financial affairs of the person and does some or all of the following:

- ascertains the assets and debts of the person;
- determines the monthly income and expenses of the person;
- manages any personal property or real estate for the person;
- places funds of the person in the Common Fund;
- makes any claims to recover funds on behalf of the person, and if necessary, commences a legal action;
- defends or settles claims against the person; and
- arranges for the preparation of income tax returns.

The PGT may also act as temporary property guardian if appointed by the court.

The PGT may investigate an allegation that a vulnerable person is being subjected to financial abuse.

The PGT may require a financial institution to suspend the withdrawal or payment of funds from a person's account for up to 30 days, where the PGT has reasonable grounds to believe that the person is a vulnerable adult and the PGT has received an allegation that the person is being subjected to financial abuse.

Where an adult is mentally incapable, the PGT may require the attorney under a Power of Attorney to provide an accounting.

Where an attorney under a Power of Attorney refuses to provide an accounting or provides an incomplete accounting, the PGT may apply to court for an order requiring an accounting.

Where an attorney under a Power of Attorney abuses his or her authority, the PGT may apply to court for an order removing the attorney.

Where a property guardian improperly manages the affairs of an adult, the PGT may apply to court for removal of the guardian.

For deceased persons

Usually the family will administer the estate of a deceased person, but sometimes there is no one to act as administrator or the family is in dispute.

In these instances, the PGT can act as Official Administrator.

If family members are disputing the validity of a will, the PGT can be appointed as administrator pending the outcome of the litigation.

When the PGT is appointed Administrator, it is responsible for dealing with all the financial affairs of the deceased and does some or all of the following:

- ascertains all the assets and liabilities of the deceased;
- determines the beneficiaries of the deceased estate;
- pays all income taxes owed by the deceased if there are sufficient funds;
- pays all debts of the deceased if there are sufficient funds; and
- distributes the estate to the beneficiaries according to the will or *The Intestate Succession Act*.

For missing persons

The PGT can act as property guardian under *The Missing Persons and Presumption of Death Act, 2009*, (which replaced *The Absentee Act*). While it is acting as property guardian, it may:

- determine the property of the missing person;
- hold, manage or sell the property of the missing person;
- search for the missing person;
- advertise in an attempt to locate the missing person; and
- hire an heir locator to attempt to locate the missing person.

The PGT will act until the person is found, is determined to be dead, or the court issues an order presuming the person to be dead.

For the Common Fund

Pursuant to section 47 of *The Public Guardian and Trustee Act*, all funds received by the PGT are to be placed in the Common Fund. Section 47 allows the PGT to invest a portion of those funds. An Investment Policy, last updated in November 2010, governs this investment activity. The complete policy can be found at **www.justice.gov.sk.ca/The-Common-Fund**.

An investment manager, Greystone Managed Investments Inc., makes the investment decisions. The investment manager is required to comply with the Investment Policy. Regular compliance reports are provided and any deviations from policy are reported to the PGT.

An investment consultant, Aon Hewitt Investment Consulting, monitors the actions and performance of the investment manager. The investment consultant meets with the Investment Advisory Committee on a periodic basis to review the performance of the Common Fund and more particularly, the investment manager.

The custodian of the Common Fund is RBC Dexia Investor Services. The custodian is responsible for safekeeping of the assets, income collection, settlement of investment transactions, and accounting for the investment transactions and related holdings.

Common Fund benchmark and asset component ranges

The Investment Policy provides that investments can be made in different asset classes, which are as follows:

	Minimum %	Benchmark %	Maximum %
Equities			
Canadian equities	5.0	14.0	25.0
U.S. equities	5.0	13.0	25.0
Non-North American equities	5.0	13.0	25.0
Total Foreign equities	10.0	26.0	40.0
Total equities	**20.0**	**40.0**	**50.0**
Total Fixed Income			
Bonds	40.0	59.0	70.0
Short-term investments	0.0	1.0	30.0
Total Fund		**100.0**	

Each asset class has a minimum and a maximum amount that can be invested in that class. Each asset class also has a benchmark percentage. The performance of the investment manager is monitored against market rates of return in each asset class. Total fund performance is measured against a benchmark portfolio return, which is calculated by applying market rates of return to the benchmark portfolio weights.

The Common Fund is invested in a manner that reflects the highest standard of prudence in investment management and the high duty of care required to fulfill the responsibilities of the PGT. Accordingly, the Common Fund is invested in a prudently diversified portfolio of high quality securities, with an overall conservative orientation. The Common Fund objective is to minimize the risk of a loss of capital, while providing current income sufficient to meet ongoing cash needs and to provide potential for capital appreciation over time to meet the needs of our clients with higher risk tolerances and longer investment time horizons.

Amounts and percentages invested in each asset class as of March 31, 2012

	Amount (000s)	Percentage
Canadian equities	$17,729	14.0%
US equities	$17,615	14.0%
Non-North American equities	$16,653	13.0%
Bonds	$69,038	56.0%
Short-term investments	$2,556	2.0%
Total invested	**$123,591**	

The Public Guardian and Trustee Regulations require that earnings be distributed quarterly. Earnings are distributed in accordance with sections 4 to 7 of the Regulations. These Regulations can be found under "Relevant Legislation" **www.justice.gov.sk.ca/pgt**.

Distribution of earnings takes place after March 31, June 30, September 30 and December 31 of each year. Each distribution involves interest, dividends and capital gains or losses.

As of March 31, 2012, the PGT held assets in trust for clients in the amount of approximately $123.6 million.

The annualized average rate of return realized for clients with money in the Common Fund for the twelve months ended March 31, 2012 was 4.71 per cent.

The average annualized rates of return (%) as of March 31, over the past 15 years

Important Issues

Aging Population

Saskatchewan's population is aging. According to the 2006 Census, just over 15 per cent of Saskatchewan's citizens were 65 or older. The population 65 and older is expected to continue to increase as the baby boomer generation matures, potentially to almost one in five Saskatchewan people by 2021. Meanwhile, the number of those over 80 (the citizens with the greatest need for guardianship and estate management) has increased dramatically. According to the 2006 Census, about one in 20 people in Saskatchewan were aged 80 or above, higher than the Canadian average of one in 27 and much higher than in Alberta, where only one in 36 residents were 80 or older in 2006.

It is difficult to predict, but our aging population will probably result in the PGT being appointed as property guardian for more and more senior citizens. We know that as people age, they are more likely to have a disability. Statistics Canada's 2006 *Participation and Activity Limitation Survey* found that 48 per cent of those aged 65 or older in Saskatchewan (60 per cent of those aged 75 or older) have some form of disability, as opposed to 16 per cent of the population of the province as a whole. In addition, we know that the prevalence of the types of disability associated with adult guardianship, such as memory, learning and speech loss, increase with age.

Therefore, there may be more need for adult guardianship in the coming years. As well, seniors may also live longer under guardianship. The workload of the PGT, and hence the need for additional resources and for qualified staff, will increase as a result. At the same time, the PGT's ability to meet its fiduciary and other obligations for each and every file and for every decision will be stretched.

Abuse of Senior Citizens

Human service providers, such as doctors, lawyers, police officers, nurses, psychologists, and social workers would probably be able to tell you of at least one case of physical, mental or financial abuse of a senior citizen. While physical and sexual abuse are obviously very serious, financial abuse is also harmful to a senior citizen. What information we have from cross-Canada surveys and research elsewhere suggests that as many as one in ten non-institutionalized Canadian seniors are the victims of some form of abuse in any given year, while perhaps one in 25 is the victim of financial abuse.

Financial abuse results in lost savings. It can mean that a nest egg set aside for retirement is gone. Once it occurs, it is difficult to get the lost property or money back. The PGT has published a booklet, *Minimizing the Risk of Financial Harm to Vulnerable Adults*, setting out steps to reduce the risk of financial harm. This booklet can be obtained upon request or viewed at **www.justice.gov.sk.ca/pgtpubs**.

Accountability

The PGT is required to account publicly to the Minister and the Legislative Assembly, as evidenced by this annual report.

The PGT is required to have an audit performed by the Provincial Auditor each year. This audit reviews financial information and involves a review of systems and controls. The PGT is subject to all financial controls of the Comptroller's Office. Citizens have the right to contact the Ombudsman who has the authority to do a review of a file. Finally, at some point, the PGT must account to a client, his or her property guardian, executor or administrator.

These accountability mechanisms are in place to ensure that the PGT operates in a lawful and responsible way.

Confidentiality Policy

The PGT has been in existence since April 1, 1984. The PGT and its predecessors, the Administrator of Estates and Official Guardian, have always taken the issue of privacy and confidentiality very seriously.

In administering the financial affairs of an adult, child or deceased estate, the PGT will always err on the side of disclosing less information rather than more to family or third parties, so that the client's privacy and confidentiality is protected.

The *Freedom of Information and Protection of Privacy Act* reinforces this principle in section 29.

The *Health Information Protection Act* further enforces this principle in subsection 5(2). In keeping with this long-standing position of confidentiality, the PGT has developed a policy with respect to the release of information.

Adults

On a day-to-day basis, the staff of the PGT must disclose information in order to manage the financial affairs of its clients. The PGT will release only the information that is necessary and in the best interest of the client. The reverse is also true: if the releasing information is not in the best interest of the client, the PGT will not release it.

If a neighbor or friend of the client calls asking for information, there is no best interest for the client, and the PGT will refuse to provide that information. If a son or daughter calls, the PGT takes the same approach. If there is no financial advantage to releasing the information, the PGT will not release it. Sons or daughters who call may expect the PGT to release information to them because of their relationship to the client. If the client were competent, he or she would decide whether to give any information to a son or daughter. Some parents give information to their children; others do not. A son or daughter has no more right to a parent's financial information than does a stranger.

The PGT is property guardian. A person who wishes for more control and information may apply to the court to assume this role. The PGT will hand over all information to the person who is appointed that property guardian by the court.

In many instances, when the PGT is property guardian for a client, it is because some financial abuse has taken place prior to the PGT's involvement. In many instances, a client's child is the abuser. That child may have tried to benefit or has benefited from being power of attorney, property guardian or unofficial manager of the parent's affairs. Sometimes there is a major family dispute occurring. The PGT may be placed between disputing members of the family.

The PGT, when faced with an information request, does not want to give information to an abuser, take sides between family members, or prejudice the rights of the client in case there is a claim for restitution. These concerns reinforce the importance of a policy of confidentiality and protection of the client's privacy. For these reasons, the PGT has taken the side of protecting a person's privacy and enforcing a strict confidentiality policy.

It should be noted that an adult, for whom we are property guardian, is always entitled to his or her financial information.

Children

The PGT is committed to maintaining the confidentiality of children's records and information. This is an important part of protecting the rights and interests of our clients, and one reason that we ask for written requests for withdrawing funds or for inquiries about the amount of money in the child's account. Account balances are not provided over the telephone unless we are certain that the person requesting the information is the child's legal guardian. We will mail a statement upon request.

Deceased Estates

When the PGT acts as Official Administrator, it will provide information only as is required to complete administration. If it is dealing with creditors, it will provide only sufficient information to settle debts. It will provide all information to a beneficiary when the beneficiary requests that information. It will not provide information to a relative who is not a beneficiary.

Risk Management

The PGT continues to identify and manage risk.

Market fluctuations could have an adverse impact on the PGT's Common Fund. The PGT attempts to minimize this impact through:

- a balanced investment policy which is reviewed annually;
- an investment manager that makes all investment decisions;
- an investment consultant who advises on the performance of the investment manager;
- a custodian who holds investments in the common fund, receives income and completes transactions;
- an investment advisory committee that reviews the performance of the investment manager and changes to the investment policy; and
- a policy that provides for the distribution of capital gains over a four year period.

Other internal risk factors include negligent administration of a client's affairs, breach of the fiduciary obligations, fraud, errors in recording income or expenses and loss of assets.

These are the risks carried by any organization that holds funds and manages assets. Every Public Guardian and Trustee in Canada also bears these risks. The greatest risk is to ignore these risks. The preferred approach is to recognize them as risks, take steps to minimize them, and do everything in one's power to ensure that such events do not occur. To minimize these risks to the greatest extent possible, the PGT:

- provides training at monthly meetings;
- ensures that staff attend relevant conferences;
- reviews actions or decisions by legal counsel;
- maintains a policy manual and a regular updating process;
- conducts an internal review on a monthly basis;
- undergoes periodic reviews by the Ministry of Justice and Attorney General's internal auditor;
- establishes a series of tight controls surrounding the issuing of cheques and the processing of expenses;
- provides for greater physical security in the PGT;
- prescribes procedures for the opening of mail and the handling of cash and other assets;
- prescribes procedures for the recording of assets on the PGT's computer system;
- maintains and updates controls around the recording of income and expenses;
- creates rules regarding the taking and recording of inventory;
- secures personal property stored at the PGT;
- insures assets; and
- places access restrictions on the computer system that allow only authorized staff to perform certain functions.

As stated above, the PGT believes the prudent approach is to recognize potential risks and take as many steps as possible to minimize those risks.

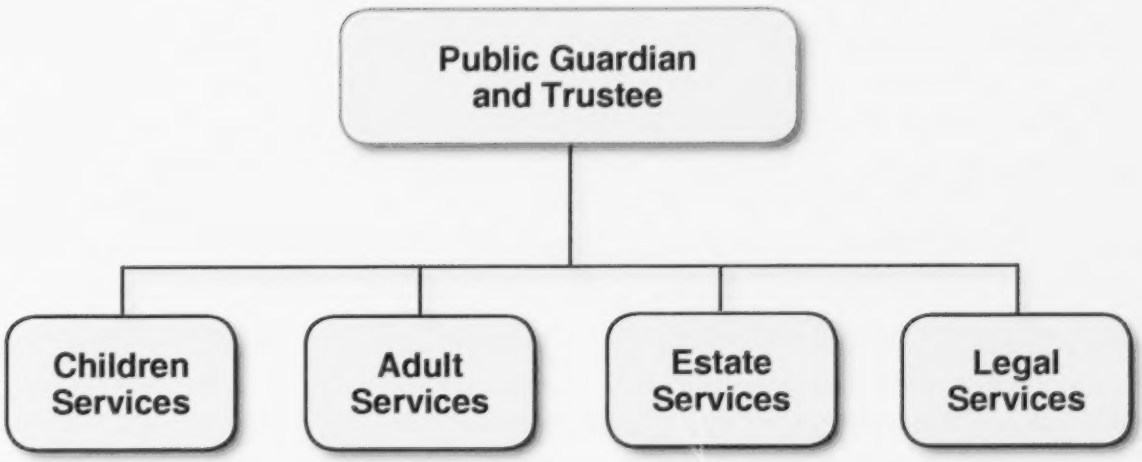
Management Structure



Fees

The PGT has a principle of cost recovery in the provision of its services. Where a full cost recovery is not achievable, the objective is partial cost recovery. There are certain situations where clients cannot pay the full or partial fee. The PGT has the discretion to reduce those fees in appropriate circumstances.

As a result of charging fees, the revenue and expenditures of the PGT have been as is shown in the figure to the right.

ESTATES AND TRUSTS UNDER ADMINISTRATION

FINANCIAL STATEMENTS

For the Year Ended March 31, 2012

PROVINCIAL AUDITOR
of Saskatchewan

INDEPENDENT AUDITOR'S REPORT

To: The Members of the Legislative Assembly of Saskatchewan

I have audited the accompanying financial statements of the Public Guardian and Trustee, which comprise the statement of financial position as at March 31, 2012 and March 31, 2011, and the statement of operations and statement of changes in equity for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian Public Sector Accounting Standards for Treasury Board's approval, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of the Public Guardian and Trustee as at March 31, 2012 and March 31, 2011, and the results of its operations and changes in trust equity for the years then ended in accordance with Canadian Public Sector Accounting Standards.

PUBLIC GUARDIAN AND TRUSTEE OF SASKATCHEWAN
ESTATES AND TRUSTS UNDER ADMINISTRATION
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2012

1. Legislative Authority and Purpose

Effective April 1, 1984 the Office of the Public Guardian and Trustee of Saskatchewan was established pursuant to *The Public Trustee Act* and continued under *The Public Guardian and Trustee Act*. *The Public Trustee Act* was repealed and *The Public Guardian and Trustee Act* was proclaimed effective May 17, 2002.

Section 3(1) of *The Public Guardian and Trustee Act* states:

> 3(1) The Public Trustee is continued as a corporation sole under the name of the Public Guardian and Trustee of Saskatchewan.

Section 3(3) of *The Public Guardian and Trustee Act* states:

> 3(3) The public guardian and trustee is the successor in office to:
>
> (a) the Official Guardian appointed pursuant to *The Infants Act*; and
> (b) the Administrator of Estates appointed pursuant to *The Administration of Estates of Mentally Disordered Persons Act*.

Effective November 12, 1992, the Public Trustee became the official administrator for each judicial centre pursuant to *The Queen's Bench Act*. (Now *The Administration of Estates Act*)

Effective August 13, 2002, the Public Guardian and Trustee became responsible for holding property for persons whose whereabouts is unknown.

The mandate of the Office of the Public Guardian and Trustee is to:

(a) protect property rights of children under the age of eighteen;
(b) administer the property and finances of adults who are incapable of managing their financial affairs, monitor other property guardians and investigate allegations of financial abuse;
(c) administer the estates of deceased persons;

(d) administer the estates of missing persons, and
(e) hold and administer unclaimed property.

2. Scope of the Financial Statements

These financial statements reflect the assets and liabilities of estates and trusts under the administration of the Public Guardian and Trustee. In addition, these financial statements reflect the annual changes in those assets and liabilities including:

a) revenue earned on behalf of clients;
b) income received on behalf of clients;
c) new client account additions;
d) released client withdrawals;
e) payments made on behalf of clients; and
f) administration fees payable to the Public Guardian and Trustee.

The trust equity represents funds that are available for distribution to the beneficiaries or clients. The operating costs of the Office of the Public Guardian and Trustee are included in the appropriation of the Ministry of Justice and Attorney General.

3. Significant Accounting Policies

These financial statements are prepared in accordance with Canadian public sector accounting standards Prescribed by the Canadian Institute of Chartered Accountants applicable to governments. These financial statements do not present a Statement of Change in Net Assets or a Statement of Cash Flows as this information is readily apparent from the Statement of Change in Trust Equity. The following accounting policies are considered to be significant.

(i) Common Fund Investments

Common fund investments, primarily bonds, debentures and shares, are stated at market value. Market value is determined with reference to closing year-end sale prices from recognized security dealers. In the absence of recorded sales, market value is determined by reference to closing year-end bid and ask prices.

Short-term investments are stated at cost, which approximates market value.

(ii) Common Fund Income Recognition

Income earned on common fund investments is recorded using the accrual basis of accounting with amounts earned in the fiscal year but not received prior to the year-end reflected as interest receivable.

(iii) Common Fund Distribution

Common fund investments generate interest, dividends, realized and unrealized capital gains (losses) income. Pursuant to section 5, 6 and 7 of *The Public Guardian and Trustee Regulations*, interest, dividends and gains (losses) income earned on the common fund investments are to be calculated and distributed to client trust accounts after the end of each quarter. Section 6 and 7 outline how interest and dividends shall be calculated. Section 7 allows the Public Guardian and Trustee to set the amount of capital gains (losses) to be distributed.

As the investment accounts are stated at market value, the undistributed interest, dividends and capital gains (losses) for the quarter ended March 31 are included in the financial statements as part of the investment value. This undistributed amount at March 31, 2012 is $7,500,000 (2011 – $8,903,000). These interest, dividends and capital gains (losses) amounts are distributed to the client equity accounts in future years.

(iv) Client Trust Assets

Client Trust Assets consist of accounts receivable, commodities, individual trust securities, personal property and insurance and real estate. Client trust securities, primarily term deposits, bonds and RRSP accounts are initially stated at market value at the date the Public Guardian and Trustee assumes control of the securities. For financial statement purposes, these securities are adjusted to the market value annually using the most recent valuation information available. Adjustments between the most recent available information and March 31 of each year for a particular client are likely minimal and would affect the value of the asset and the trust liability equally.

Shares are initially recorded at the market value at the time the Public Guardian and Trustee assumes responsibility for control of the investment. Subsequent increases or decreases in the market value are reflected in the trust accounts annually. Where a

market value for a share is not readily available, the shares are recorded for accountability purposes at a nominal value of $1.

Other client trust assets consist of commodities, real estate, personal property, life insurance policies, pension plans and annuity contracts and are stated at the following values:

(a) **Commodities** are stated at market value, which is determined annually with reference to the estimated final delivery price for the particular commodity.
(b) **Real estate,** including real estate holdings for infants where the Public Guardian and Trustee is appointed property guardian, are initially recorded at appraised value at the date the Public Guardian and Trustee assumes control of the asset or at cost if the real estate is purchased on behalf of clients by the Public Guardian and Trustee. Real estate values are adjusted to appraised values annually. If no valuation information is available, these assets are recorded at a nominal value of $1.
(c) **Miscellaneous Personal Property** is stated at amounts determined from information available to the Public Guardian and Trustee at the date the Public Guardian and Trustee assumes control of the assets. Subsequent adjustments are made if additional valuation information is received. If no valuation is available, these assets are recorded at a nominal value of $1.
(d) **Life Insurance Policies** that carry cash surrender values are stated at the cash surrender value as determined with reference to the most recent valuation information available prior to March 31. Policies that do not carry cash surrender values are stated at a nominal value of $1.
(e) **Pension Plans and Annuity Contracts** are stated at residual value as determined with reference to the most recent evaluation information available prior to March 31 of each year. Pension plans and annuity contracts with no residual value are stated at a nominal value of $1.

(v) Use of Estimates

Preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions in determining the reported amounts for assets and liabilities. Actual results could differ from management's best estimates, as additional information becomes available.

(vi) Financial Instruments

The Public Guardian and Trustee's financial instruments consist of Interest and Dividends Receivable, Cash and Due from the General Fund, Common Fund Investments, Client Trust Assets, Accounts Payable and Mortgage and Loans Payable.

Common Fund Investments and Client Trust Assets are recorded at fair value. Changes in fair value and gains and losses as a result of the asset being derecognized due to disposal or impairment are recognized in the Statement of Operations.

Cash and Due from the General Funds are recorded at fair value. Fair value is determined as cost plus accrued income, which approximates fair market value.

Interest and Dividends Receivable, Accounts Payable and Mortgages and Loans Payable are measured at amortized cost. Due to their short-term nature, the amortized cost of these instruments approximates their fair value.

(vii) Adoption of New Accounting Standards

Effective April 1, 2011, the Public Guardian and Trustee retrospectively adopted Canadian public sector accounting standards. The retrospective adoption did not result in any change to the 2011 comparative figures.

Also, effective April 1, 2011, the Public Guardian and Trustee early adopted the Canadian public sector accounting standards PS 3450 and PS 1201 for financial instruments and financial statement presentation respectively. PS 3450 establishes standards on how to account for and report all types of financial instruments. PS 1201 establishes general reporting principles and standards for the disclosure of information based on the underlying financial statements concepts and objective of financial statements. The adoption of these standards did not have a material impact on the financial statements.

4. Common Fund Investments

The Public Guardian and Trustee Act provides as follows:

47(1) The Public Guardian and Trustee shall:

(a) place money received by the Public Guardian and Trustee pursuant to this Act, any other Act or court order in a common fund; and

(b) subject to the approval of the Investment Board, invest in the name of the Public Guardian and Trustee that part of the common fund that in the Public Guardian and Trustee's opinion is not immediately required for persons for whom the Public Guardian and Trustee holds funds.

Common Fund Investments are invested through a single "common" fund to ensure consistency of return among clients. The investment objectives of the common fund are to achieve at least market returns with prudent risk diversification, with the potential for enhanced returns through active investment management for a majority of the portfolio. The Public Guardian and Trustee recognizes that there are diverse time horizons for its clients and that capital preservation is of primary concern. The employed investment objectives include a multiple asset, total return approach which values all types of investment income equally, a moderate income requirement to supplement other liquidity sources, a requirement for stability and maximization of return, and a degree of inflation protection and capital appreciation.

The Public Guardian and Trustee recognizes that, by their nature, investments carry with them certain risks. The investment policy employed by the Public Guardian and Trustee is designed to mitigate these risks as much as possible by placing restrictions on the overall content and quality of the permitted investments. The following describes the risks associated with the investment portfolio, managed through an investment manager, by the Public Guardian and Trustee.

Price Risk

Price risk refers to the potential that the value of investments will fluctuate as a result of foreign currency, interest rate and general market changes.

The value of the common fund investments will fluctuate with changes in foreign currency, interest rate and general market changes. To mitigate these risks the Public Guardian and Trustee works with an investment manager that actively manages asset class allocations through a balanced fund approach. The employed investment policy limits foreign currency exposure by permitting a maximum of 40% foreign investment with a stated benchmark of 26% foreign investment. The policy also limits market risk by permitting a maximum of 50% equity investment, including

foreign equities with a benchmark of 40% equity investment. The Public Guardian and Trustee manages interest rate risk by limiting the quantity and quality of interest rate sensitive investments to a maximum of 100% of the portfolio with a benchmark of 59% fixed income securities. Market risk is managed by taking a conservative prudent approach to investment.

Credit and Liquidity Risk

Credit and liquidity risk arises from the potential for an investee to fail or for an issuer to default on its obligations to the common fund. The Public Guardian and Trustee mitigates this risk by limiting the quantity and quality of the permitted investments to high quality, highly rated equity investments and highly rated fixed income securities.

5. Due from the General Revenue Fund

The Public Guardian and Trustee's operating and fees bank accounts totaling $7,023,000 (2011 - $4,028,000) are included in the Consolidated Offset Bank Concentration arrangement for the Government of Saskatchewan. Interest earned on the balance attributed to the Public Guardian and Trustee is calculated and paid quarterly into the Public Guardian and Trustee's operating account using the Government's thirty day borrowing rate and the Public Guardian and Trustee's average daily bank account balance. The Government's average thirty day borrowing rate for the year-ended March 31, 2012 is 1.06% (2011 – 0.80%)

6. Administration Fees

Pursuant to the provisions of *The Public Guardian and Trustee Regulations* and *The Administration of Estate Regulations*, the Public Guardian and Trustee may charge a fee for services performed in the management of client accounts. Such fees charged are payable to the General Revenue Fund of the Province of Saskatchewan.

7. Accounts Payable

Accounts payable represent encumbrances of client assets that are payable to independent third parties. These client obligations are settled, as client resources become available. In some cases, a client's liabilities exceed the stated value of their assets. These items are included as accounts payable and are paid, as the resources of the client become available to do so.

Accounts payable consist of the following balances:

	(in 000's) 2012	2011
Accounts Payable to Third Parties	$ 2,525	$ 2,864
Administration Fees Payable to the Public Guardian and Trustee	788	790
	$ 3,313	$ 3,654

8. Common Fund Earnings Distributions

In April 2012, the Public Guardian and Trustee distributed the following interest, dividends and capital gains (losses) for the quarter ended March 31, 2012: interest $501,000 (2011 - $627,000), dividends $99,000 (2011 - $67,000), foreign dividends $72,000 (2011 - $57,000) and capital gain (loss) $963,000 (2011 – $1,076,000).

9. Related Party Transactions

Victims' Fund

The Public Guardian and Trustee holds and invests funds for the Victims' Fund established pursuant to *The Victims of Crime Act, 1995*. The Victims' Fund is managed by the Ministry of Justice and Attorney General. Earnings are allocated pursuant to sections 5, 6 and 7 of *The Public Guardian and Trustee Regulations*, but no fee pursuant to those regulations is charged.

The trust equity held on behalf of the Victims' Fund, the amount due to the Victims' Fund, and the Common Fund earnings distributed to the Victims' Fund is as follows:

	(in 000's)	
	2012	2011
Trust Equity at March 31	$ 904	$ 859
Common Fund earnings distributed During the year	$ 46	$ 46
Common Fund earnings to be Distributed in April	$ 12	$ 13

Other related party transactions are described elsewhere in these financial statements.

10. **Budget**

Budget amounts have not been disclosed as Public Guardian and Trustee's nature of operations does not provide for relevant budget amounts to be reasonably determined.
